COMMENTS:

On 2/8/2018 at/around 6:30pm a patron and daughter were riding down a double tube for the Triple Twist enclosed slide. While the patron was going through the slide the ~~tube~~ patron and daughter separated from the raft. Both patron and daughter exited the slide at the exit, and the lifeguard then proceeded to assist.

Both patron and daughter walked over to the resort supervisor, who then provided first-aid.

At the time of the injury, the patron chose not to seek further care.

The Triple Twist slide was shutdown at the time of investigation and resort procedures at taken place, noting no differences in the ride.
