# Methodology

The methodology used to generate the Kansas 2010 Affirmative Action report has changed from previous years.

Previously the ratios, for the Labor Force section, were derived from the most recent U.S. Census data along with the Bureau of Labor Statistics' (BLS) Local Area Unemployment Statistics (LAUS) data to estimate Labor Force data for the years between the centennial years.

For the 2010 census year the Census Bureau ceased collection of labor force data by race and gender; therefore eliminating the possibility for the Kansas Department of Labor to calculate the needed ratios.

In our commitment to continue providing the Affirmative Action report to our customers, the 5-year rolling estimates of the labor force data provided by the American Community Survey (ACS) will be used. The ACS is a branch of the Bureau of Labor Statistics.

Please consider caution when performing any longitudinal comparison of the labor force portion of this and subsequent year's reports to report generated prior to 2010.
