ORDER

Hearings were held, over a period of four months, on the question of the designation of appropriate units for state employees. Approximately 25 days of transcribed testimony is before the Board and has been considered.

Mr. Matthew J. Dowd, the duly appointed hearing examiner for the Board, formally presented his recommendations for designation of appropriate units at the April 18, 1974 regular meeting of the Board. These recommendations were formally adopted as the order of the Board by roll call vote on April 18, 1974 subject to its finalization in writing.

Appearances of parties were as follows:

- Mr. Franklin Theis, Chief Counsel, Dept. of Administration
- Mr. Terry Watson, Atty. in behalf of American Federation of State, County and Municipal Employees
- Mr. William Haynes, Atty. in behalf of Kansas Association of Public Employees
- Mr. Robert Reinhold, Atty. in behalf of Office and Professional Employees International Union, Local 320
- Mr. Lloyd Rose, Business Manager, Laborers' International Union Local 1132
- Mr. Bruce McCollom, President, Kansas Council of Government Engineers & Scientists, Inc.
- Mr. Charles Hamm, Chief Atty., in behalf of State Dept. of Social and Rehabilitative Services

Numerous state agencies presented testimony by and through their agency heads or employees who were called as witnesses.

Findings and Discussion

The basic guide for the determination of an "appropriate Unit" under the Act is found in KSA 75-4327(e) which sets out several criteria for the determination of appropriate units as follows:

1. The principal of efficient administration of government;
2. The existence of a community of interest among employees;
3. The history and extent of employee organization;
4. Geographical locations;
5. The effects of overfragmentation and the splintering of a work organization;
6. The provisions of KSA 1972 Supp. 75-4325; and
7. The recommendations of the parties involved.

Other criteria may be utilized by the Board as appropriate. A full consideration of all the evidence, briefs and arguments discloses that the Department of Administration is primarily concerned with the efficient administration of state government and overfragmentation. Essentially, this is that department's responsibility, and no criticism can be made of that position. However, there remains some question as to whether efficiency of government will be promoted by the adoption of fourteen large units as requested by the Department of Administration. Even assuming that the most efficient operation of state government would thereby be promoted, this in and of itself does not mandate the adoption of the fourteen units. The other factors, and particularly the existence of a community of interest and the history of employee organization, have been given substantial weight by the Board. The criteria of avoiding fragmentation and over splintering of the work organization has also been considered.

In addition to the statutory criteria, attention has been given to the fact that professional and security employees of the State of Kansas must be given separate and special attention in regard to formation of appropriate units.

Units that are found by the Board to be appropriate are attached hereto and made a part hereof. They are described by classification, agency and approximate number. Omissions will be considered by the Board by motion of interested parties.
