

APPENDIX B

QUICK REFERENCE TABLE

This appendix is provided as a supplement to this schedule of medical fees and is to provide a rapid determination of the dollar amount associated with the particular Procedure Code. The dollar amount specified herein was calculated by multiplying the respective conversion factor of the fee schedule section by the Unit Value of the Procedure Code that was used for billing purposes.

The **Anesthesia** section was not included in this quick reference table, as the determination of the maximum allowable payment incorporates the variable of time required for the provision of each service. Refer to Anesthesia section of this fee schedule for the maximum allowable payment.

RADIOLOGY CHARGES: Radiology services provided by Peer Group 3 or Critical Access hospitals or ambulatory surgical care facilities on an outpatient basis are exempt from the variable discount, and are therefore subject to the Maximum Fees in the Radiology Section.

PATHOLOGY AND LABORATORY CHARGES: Pathology and Laboratory services provided by Peer Group 3 or Critical Access hospitals or ambulatory surgical care facilities are exempt from the variable discount, and are therefore subject to the Maximum Fees in the Pathology and Laboratory Section.
